

## The World's Leading AAV Provider EHang Wins Urban Air Mobility Call from Paris Region

January 27, 2021

GUANGZHOU, China, Jan. 27, 2021 (GLOBE NEWSWIRE) -- EHang Holdings Limited (Nasdaq: EH) ("EHang" or the "Company"), the world's leading autonomous aerial vehicle (AAV) technology platform company, has been selected as a key member of the [Reinvent Air Mobility](#) initiative out of 150 applications from 25 countries to build the future urban air mobility (UAM) ecosystem in the capital Paris region of France, in prospect of the 2024 Olympic and Paralympic Games. There are partners from vehicle development, ground infrastructure to airspace integration and operations, including aviation industry giants such as Airbus and Air France. As the only commercialized passenger-grade AAV solution provider and a pioneer of urban air mobility, EHang will take lead in the setup of a whole new transport ecosystem by taking advantage of its rich technical and operational experience. The initiative was launched by the Groupe ADP, RATP Group and Choose Paris Region in order to accelerate the maturity of both the UAM ecosystem and the regulatory framework in the Paris region.

Beginning in June 2021, tests will start to take place in a real aeronautical environment at the area of Pontoise and under supervision of the French civil aviation authority (DGA), supported by the European Union Aviation Safety Agency (EASA) and Eurocontrol. The whole end-to-end process from parking, takeoff and landing operations, as well as operational aspects are to be elaborated, and EHang can provide support with its rich experience that has been already put into practice in China on a broad scale. The exceptional initiative may help create a whole new sector and may make the Paris Region a strong reference in the global market for urban air mobility.

### About Groupe ADP

Groupe ADP develops and manages airports, including Paris-Charles de Gaulle, Paris-Orly and Paris-Le Bourget. In 2019, the group handled through its brand Paris Aéroport more than 108 million passengers and 2.2 million metric tons of freight and mail at Paris-Charles de Gaulle and Paris-Orly, and more than 110 million passengers in airports abroad. Boasting an exceptional geographic location and a major catchment area, the Group is pursuing its strategy of adapting and modernizing its terminal facilities and upgrading quality of services; the group also intends to develop its retail and real estate businesses. In 2019, group revenue stood at €4,700 million and net income at €588 million.

Registered office: 1 rue de France - 93290 Tremblay en France, France. A public limited company (Société Anonyme) with share capital of €296,881,806. Registered in the Bobigny Trade and Company Register under no. 552 016 628.

### About RATP Group

With sixteen million journeys every day across the planet, RATP Group is one of the leading urban transport operators in the world. The Group operates in twelve countries on four continents through its RATP Dev subsidiary and each day runs eight modes of transport: metros, urban and inter-city bus services, tramways, rail, sightseeing, cable cars, maritime shuttle services and transport on demand. The Group is also present across the entire spectrum of new mobility services in partnership with four other modes (electric scooters, car-sharing, carpooling and driverless shuttle services). As a widely-hailed expert in infrastructure management and engineering, the Group also fields a broad range of urban services through its subsidiaries in real estate management and engineering, operating retail facilities, fiberoptic technologies, customized passenger information and innovative ticketing solutions.

RATP has been running one of the densest multimodal networks in the world for over seventy years in Paris and around the French capital. Thanks to its 64,000 staff members RATP Group designs, implements and runs mobility solutions and innovative services each day for sustainable and more human towns and cities.
